1 Puppy Training: Let us do the training and repetition for you during our six-week Puppy Program which also includes daycare. Reward operant conditioning methods are used for shaping and modifying behavior. Puppies repeat behaviors that yield good results. It's that simple. But it does take being able to read body language, good technique, superb timing, skilled performance, redirection, as well as calm patience and repetition.

2 Puppy Socializing: Your puppy will go through gradual learning experiences by interacting with and meeting new puppies and people. Sessions of free play supervised by our trained staff will help your puppy learn proper etiquette and dog language. They will learn to play nicely and make

friends and become more comfortable around others.

3 Puppy Activities, Familiarization, and Adventures: Mental activities enrich your puppy's life and boosts their confidence. Frequent gentle handling helps prepare your puppy to enjoy a happy life being more receptive to new everything. We will help your puppy stay safe and have pleasant puppy experiences while learning life is good.

4 Puppy Behavioral Problems: We will solve specific behavior problems by helping your puppy to choose good behaviors over bad behaviors. We will train your dog that preferred behaviors have greater rewards.

5 AKC's S.T.A.R. Puppy: Socialization, Training, Activity, Responsibility This is the top of the line for our puppy program. We agree with AKC, that all dogs deserve training and a responsible owner. All puppies can participate in the AKC S.T.A.R. Puppy preparations. If you would like your puppy to receive the AKC S.T.A.R. Puppy Medal and a frameable certificate then you will need to attend six one-hour Saturday sessions with your puppy and the AKC Canine Good Citizen S.T.A.R. Puppy Evaluator.

Curriculum for Puppy Training, Socializing and Adventures Programs

PUPPY TRAINING, SOCIALIZING AND ADVENTURES

We take the stress out of puppy training by doing the work and repetition for you.

BASIC PHILOSOPHY OF TRAINING

Our six-week Puppy Program emphasizes enrichment experiences for enjoying puppyhood in a protected environment. We embrace a safe culture of trust and love. We carefully shape confident behavior and positive enriching experiences. We use praise, affection, positive reinforcement and repetition. The management of calm interactions and structured rest helps puppies to learn with their shorter attention span level. Patience is key. We study the simple foundation behaviors and invest the management time for puppies to learn skills and practice conditioned emotional responses. We do the repetition and practice consistency for you so you can focus on enjoying your puppy.

MAIN BENEFITS

- Reduce your time required to train your new puppy by 95%.
- Your puppy will acquire confidence so they can experience life without being fearful.
- Drop-off training, Mon-Fri, includes all-day daycare if needed.
- Leash training, potty training, and social manners.
- Puppy activities for mental stimulation.
- Weekly progress updates and take-home handouts to keep up learning at home.
- Imagine taking your dog out in public, including dog-friendly restaurants, and your dog is well-behaved.
- Your puppy will be gently exposed to teeth brushing, nail trimming, and fur brushing to help them accept necessary grooming as adults which leads to better health.
- Respectful puppies have more focus and understanding making them more manageable.

- Behavioral issues can be prevented with early socialization.
- Puppies LOVE playing with other puppies!

AGE AND VACCINATION REQUIREMENTS

- Puppies can start the program between ages 9-weeks to 5-months of age.
- Vaccination records by a licensed vet for Parvo, Distemper and Bordetella. Must wait 7-days after distemper vaccination is given for puppy's inoculation.
- Rabies due by 4-months of age.
- Licensed vet to provide clean bill of health including parasite free stool sample before first attendance.
- *Please bring your puppy's meals to be served during their visits.*
- *Each puppy will be provided a training log to track and chart progress during the 6-week course.*

HOW TO GET STARTED

Call us at **480-207-1852** to enroll your puppy. Make sure your puppy meets the requirements shown above. Come tour our facility and pick up a program curriculum and discuss training objectives.

We offer three package options: 18-day, 24-day and 30-day packages. Each package builds upon the prior package for additional training. Decide which package and level of time is perfect for you and your puppy. The 18-day package includes everything needed for the basics+. The 24-day package addresses chewing, biting, barking, phobia, and other behavioral problems in more depth. The 30-day includes prep work for AKC's Canine Good Citizen S.T.A.R. Puppy's twenty essential skills.

- 18-days, each day 6-12 hours, plus up to six optional one-hour Saturdays
- 24-days, each day 6-12 hours, plus up to six optional one-hour Saturdays
- 30-days, each day 6-12 hours, plus up to six optional one-hour Saturdays

We advocate for the puppy! We know the investment you make today will pay off for the rest of your life with the puppy. And the pleasurable feeling of a bonded relationship with your puppy is one of the greatest feelings you can have.

Disclaimer: Our puppy training and group socializing are suitable for most young puppies, however, some puppies have personalities or conditions which are more conducive to one-on-one lessons instead of group. For those special one-on-one needs we can refer you to an excellent one-on-one trainer.
